Mission. Vision. Values

Mission

We are strengthening the legal possibilities, protecting the human rights and freedoms, developing community

Vision

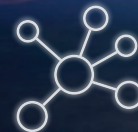

The rule of law and the community sustainable development in Ukraine

Each community can use the city programs for providing free legal aid, local laws and regulations for the implementation of hearings and initiatives of citizenships. Each community is able to involve local budget for solving the community problems

Everyone can get the free legal aid in the Network's office that located at the attainable distance or via the Internet. The high level of legal liability of citizens who are feeling the legal protection and safety, know how to solve their own and citizens problems

The Network's offices are working in in coordination in every region of Ukraine

Values

Human

Partnership and synergy

Professional confidence

Professional competence

Neutrality and impartiality

Manifesto

We are Legal Development Network

We believe in positive changes. We motivate people for conscious actions

Every change starts from one human in the state, so every human is important

We change the community life

Our associates and communities where we work are inspiring and encouraging us

We are unbelievable romantics and believe in a bright future

We are ordinary people who do unordinary things

Our ideals are respect for human dignity, faith in the community power, recognition of the rule of law

We believe that a true democratic society forms in Ukraine

Because we are full of energy and faith in the feasibility of changes in society – we are the ones who really change it!

To achieve a better life in common join us!

About Legal Development Network

Legal Development Network — is a coalition of non-government organizations that develop the local communities through the provision of free legal aid. Today the Network combines the 23 organizations in the 14 regions of Ukraine. These organizations on which base the Network's offices are created, provide for citizens a basic information on legal issues, actively cooperate with the local government to solve individual problems and to protect the public interest, to implement the alternative variants of conflict resolution, to develop the communities and leadership

Legal empowerment

1

Law education

2

**Creating mechanisms
and tools of human
influence on the power**

3

Providing access to justice

4

**The transformation of man's
role in the community from the
passive to the responsible one**

Legal empowerment

Legal empowerment – the direction of the Network’s strategy, which provides the formation of a critical mass of people who know their rights, able and motivated to implement them. Every month more than 3000 people apply for legal aid to the Network’s offices and via its online services. The variety of legal problems is wide from which the Network’s lawyers are working: it’s land, labor, social and family cases. Much attention is given to solve problems of internally displaced persons and veterans of Anti-terrorist operation

Legal empowerment: providing access to justice

It has been...

At first the activity of members of the Network focused on the citizens' teaching of their rights and providing the consultations and support of variety of legal issues. It is, above all, client oriented structures where people can get information brochures, consultations, and support with the preparation of documents

It is expected...

Providing a legal aid to solve legal issues for at least 100000 persons every year including through online-chat services of the Network's site www.ldn.org.ua

The 1200 residents of communities will obtain a secondary legal aid every year

Development and implementation of redirect system and control of the quality of providing a free secondary legal aid by other providers of the free legal aid

Demonstration at least two distinct advocacy achievements that aimed at improvement the access to justice for Ukrainians

It is now...

Providing a primary free legal aid to 40000 persons each year. Also the Network's offices do planned visits to remote regions and villages to advise villagers and share information. Besides, use modern technologies such as, for example, online chat and Skype consultation – for better access to justice. The providing secondary free legal aid is carried out for strategic affairs and redirect to other providers of free legal aid

Legal consultations by Dvorichna, Khmelnytsk and Tatarbunary regional offices of the Legal Development Network

Legal empowerment: law education

It has been...

The information platform "Legal space" - a tool that the Network uses to improve awareness of the problems and dangers in small and medium sized communities in Ukraine, spreading information about their solutions - through the collection and publication of success stories that gives people hope and faith in the possibility of solving legal issues in a legal way and unites society

It is expected...

250 educational events on legal education

5,000 people each year will get knowledge about their rights and how to implement them

1,500,000 people every year will learn about their rights and ways of their implementation and protection.

Development of booklets, erector sets on legal topic

Creating of themed documentaries videos

It is now...

The forms of work of Network's offices of the Legal Development Network, in addition to the direct provision of primary legal aid, training and educational events on topical legal issues for residents of communities, local authorities, local councilmen, youth, children

1. Training on "The rights of internally displaced people. The state guarantees – be able to use them" Dvorichna, 04/19/2017

2. Legal education event in Pershotravneve, Kharkiv region, 3/24/2017

3. "Children Rights" for students in grades 6-8 Orynynsai School-III levels, Kamenets-Podilskyi (village Oryn) 22/03/2017

Legal empowerment: mechanisms and tools of human influence on the power

It has been...

Legal Development Network was created with the aim of Legal Empowerment of the poor people. In connection with the new challenges for the State the Network stopped only providing maintenance services and decided to develop communities which were members of the Network (its offices) as well as to assist other communities seeking development

It is expected...

Involving residents to prepare local initiatives

Development of methods of analysis and recommendations on the mechanisms of participation of people in decision-making

Creation and adoption of new mechanisms for people to participate in decision-making

It is now...

In terms of decentralization for local government and for most residents of local communities, there was the urgent need to understand the mechanisms and processes of provision of the effective management of local resources. It is equally important for the residents of the community to deal with the issues of access to the mechanisms of democratic participation. The Legal Development Network implements a number of training programs to ensure these needs in the community, particularly schools and local government schools of coaching

1. Press Conference to protect Skadovsk office of Legal Development Network, Skadovsk (Kherson region), 29.11.2016

2. Training of community activists from Lviv, Ivano-Frankivsk, Ternopil and Zaporizhzhya regions in Kherson office of Legal Development Network, Kherson, 07.10.2016

Legal empowerment: mediation

It has been...

The direction of this work was generally undeveloped in the Network

It is expected...

100 mediations will be carried each year

Training of 30 mediators each year, of which 10 operate in the implementation of mediation in legal disputes

The involvement of judges in six regions of Ukraine

Up to 10 offices of 30 apply mediation in resolving conflicts in offices as inpatient services

Developing the necessary systemic changes for the introduction of mediation in Ukraine

It is now...

20 mediators were prepared, more than 10 successful mediations were conducted, cooperation with the judges in the two regions was established, the experience of cooperation on the implementation of mediation in legal disputes was described

1. Training "Basic training on the basics of mediation", Kyiv, 08.30.2016
2. Training "Basic skills facilitation of dialogue", Lviv, 10-12.12.2016
3. Training "Court mediation", Lutsk, 29-31.01.2017

Legal empowerment: the transformation of man's role in the community from the passive to the responsible one

It has been...

The direction of this work was undeveloped in the Network

It is expected...

The existing pool of competent people (leaders) of the communities that will receive the knowledge and skills to effectively influence the processes in the community

Regional local government schools were founded

Involvement and strengthening of the capacity of youth to democratic participation

It is now...

Identifying points of impact and encouraging people to change

Training people to plan and implement changes that support them in this activity

Attracting young people to the legal processes in the community

Discussion of community issues, Vvedenka (Kharkiv region), 12/03/2017

Proficient legal support of communities: creating conditions for development of communities being able to solve their problems by the legal way

- 1 Legal support
of initiative groups**
- 2 Influencing formation
of local policies**
- 3 Transparent, open
and accountable
local government**

The network will be an integral part of the environment in order to provide legal assistance to Ukraine, it will also have universal capacity for advocacy and implementation of access into the field of justice which focuses on community needs

Proficient legal support of communities: training of lawyers working with Anti-terrorist operation veterans

1. Training “Legal algorithms to address issues dealing with defending human rights of ATO ex-participants and their families”, Kherson, 27.11.2016

2. Employees of local centers of free secondary legal assistance in Chernihiv Region have considered topical issues of legal assistance to ex-participants of the ATO, Chernihiv, 26.12.2016

3. Training for lawyers and solicitors of rights of ex-participants of the ATO, Bila Tserkva, 21.01.2017

4. Training “Empowerment of Legal possibilities of ex-participants of the ATO”, Khmelnyts'kyi, 12.27.2016

Proficient legal support of communities

To improve quality of legal consulting to veterans of the ATO seeking assistance at state offices of the Network the State legal assistance system, a series of events for training of employees of the state system have been conducted. According to results of events, the Network received a pool of partners in the community who can further provide legal assistance to veterans of the ATO and their families at own communities directly to reduce tensions and resolve conflicts in communities, to accompany typical cases or redirect more complex cases to offices of the Legal Development Network

Proficient legal support of communities: support of initiative groups

It has been...

The direction of this work was undeveloped in the Network

It is expected...

Development of passports of communities and methods of determination of development priorities of communities

Training of 20 experts in local government every year

Provision of assistance in operation of population self-organization bodies (PSOBs) and public initiatives

It is now...

Collected best practice of support of ideas realizations by initiative groups and information about the necessary prerequisites for development system of this direction

1. Workshop for local governments representatives, Kovel (Volhyn region), 05.08.2016

2-3. Action for transparent city budget, Chuhuiv (Kharkiv region), 29.07.2016

Proficient legal support of communities: influencing formation of local policies

It has been...

The direction of this work was undeveloped in the Network

It is expected...

Local programs map

Actualization of the map of needs/problems of a community

Increasing efficiency level of expert groups

Solutions to problems, common implemented programs, projects

It is now...

Monitoring of availability of local programs and their effectiveness, community problems and priorities

Participation in expert groups

Development of intersectoral cooperation (business-government-civil society)

1. Muntean family, who lawyers of the Network helped to gain Ukrainian citizenship (Odessa region)

2-3. Raising legal awareness in Bilozerka (Kherson region) and Dvorichna (Kharkiv region)

Proficient legal support of communities: transparent, open and accountable local government

It has been...

The direction of this work was undeveloped in the Network

It is expected...

The basis of best practices

Analysis of local legal acts

Monitoring activities of local governments, correspondence of communities term plans to the Forming Methodology for capable communities

It is now...

Improving access to local government, increase of expertise, professionalism and self-realization of members of the Legal Development Network

Western Regional Training of the Legal Development Network, Lviv, 20-21.11.2016

Proficient legal support of communities: school resilient services and creating safe communities in cooperation with the police and local government

It has been...

Mediation as a method of non-violent conflict resolution began quite actively introduced in Ukrainian schools. Since 2012 the process joined some members of the Legal development Network, conducting painstaking work to promote and implement mediation in partner schools. However, this trend did not become systemic

It is now...

The school resilient services are already founded in 16 schools of Kherson, Kharkiv, Vinnytsia and Volhyn regions. They are covering by their activity over 4 thousand children. The implementation of mediation services on the basis of school services, these schools have shown good results. Creating a propaganda teams, conducting of "community values" through the students, the experience of the first mediations and reviews, both parents and the school administration, reduce aggression and conflict among students, improve the atmosphere in schools, mobilizing students to solve conflict independently between peers by nonviolent

It is expected...

Prepared 36 own coaches and mediators

Increased qualification of coordinators and personnel services for the implementation of mediation in the community

Prepared 160 children mediators

Created 22 new services in 5 regions, whose activities will cover more than 10 thousand children

School resilient services fulfill primary link of the preventive action to ensure safety in the community

Proficient legal support of communities: school resilient services and creating safe communities in cooperation with the police and local government

- 1, 2. Training "Basic skills of a mediator of a School Resilient Service", Dvorichna, 06.01.2017
- 3, 4. Training "Basic skills of a mediator of a School Resilient Service", Kovel, 19-22.01.2017
- 5, 6. Training "Basic skills of a mediator of a School Resilient Service", Skadov's'k, 30/01-02.02.2017
7. Opening of the School Resilient Service, Dvorichna, 01.03.2017
8. Opening of the School Resilient Service, Skadov's'k, 17.03.2017
- 9, 10. Opening of the School Resilient Service, Khmil'nyk, 27.03.2017

Community policing: police and community interaction

It has been...

From 2015 by support of International Renaissance Foundation the separate offices of the Legal Development Network work in the local communities to identify the needs of citizens in matters of safety and security. First conclusions: the safety in the local communities – is the common responsibility of police, government and citizens, which requires effective cooperation

It is expected...

Focus at work in the communities

Development of organization and legal capacity of partners through study: how to identify the safety problems in the communities, how to build partnership between communities, government and police, how to find effective forms between them for joint save space

It is now...

Conducting joint with the police citizens' receptions, pollings, focus groups, publication of special supplements to newspapers

Organizing of school clubs, coordination offices of safety and common project platforms for local interested parties

Experts of the Legal Development Network joined to the creation of the booklet, that intended to inform the general public by examples of successful histories that provides for community policing, why do we need the community, local authorities and the police

1. Common project platform meeting, Kherson

2. Discussion on the concept of the Coordination office of safety, Tatarbunary (Odesa region)

3. Conducting joint with police citizens' reception, Kamyanets-Podilskyi

The strengthening of Roma communities

Roma minority is the most vulnerable and unprotected among the other national minorities that are represented in Ukraine. Majority of romas are not aware of their rights and duties as the citizens of Ukraine, they are not oriented in the legal field, do not know the mechanism of appeal to authorities, socially isolated because of language barrier, illiteracy and poverty

One of the effective mechanisms in solving the problem of Roma communities in Ukraine is providing free legal assistance. Centers of free legal help for romas operate in different regions of Ukraine at support of International Renaissance Foundation. In particular, such centers operate as a part of Legal Development Network (Mukachevo, Svalyava, Cherkasy, Odessa). The Centres are the places where the representatives of roma minorities can get free primary legal help

The main unsolved problems the romas apply to lawyers of legal information and advise are: the inability to obtain basic identification documents, the inability to register the habitation, to receive social benefits, medicaid, education etc. Therefore, the centers not only provide legal assistance on specific issues, but also solve a global problem of strengthening of roma communities

The strengthening of Roma communities

It has been...

At the beginning of the creation of Legal Development Network the roma community was one of the main direction of its activity. Firstly, this direction was poorly developed

It is expected...

Roma NGOs will be capable to represent and protect the rights of Roma in areas of their compact residence. Roma become full members of the community

It is now...

After strategic plans elaboration this activity began to grow rapidly. The lawyers of the Network mobile consultations to roma communities, in their compact settlements to provide families with legal assistance, to develop the ability to defend their own rights, to hold law educating events. This gives the opportunity to reduce the violation of roma rights. Work on the development of the Roma communities is carried out in a compact areas inhabited by Roma minorities: in Odessa region, Zakarpattia region, Kharkiv region and Cherkasy region. The achievements in this direction are: reducing the number of people without documents, education among roma minorities, the application of the cooperation of citizens for the needs of Roma with the government through the establishment of working groups in the regional state administrations

1. Roma families and activists involved in the creation of self-government, Svaliava (Zakarpattia region)

2. The participants of Roma Youth Forum, Kyiv, 31.03.2017

The strengthening of Roma communities

1. Serhii Ponomariov, Natalia Kozyr, Ivan Lanio. Svaliava (Zakarpattia region)
2. The leader of the initiative group of residents Roland Gazi filed a petition to Mayor of Uzhgorod
3. Mykola Yatskov, lawyer of "Vested" organization
4. Gustav Makula, Zakarpattia region
5. Istvan Jostvan and his wife, Zakarpattia region
6. Residents of the Roma building at a meeting with lawyer Mykola Yatskov and head of the NGO "Romani Cherkhen" Myroslav Horvat. Uzhgorod (Zakarpattia region)
7. Roma children, Uzhgorod (Zakarpattia region)

Institutional capacity of the Network

A detailed image of a satellite in orbit above Earth. The satellite has a central body with various instruments and two long, rectangular solar panel arrays extending outwards. The Earth's horizon is visible at the bottom, showing a blue and white atmosphere. The background is a deep blue space filled with numerous small white stars.

- 1 Organizational development**
- 2 Effective external and internal communication**
- 3 Financial sustainability**

Institutional capacity of the Network

A satellite with solar panels is shown in orbit above the Earth's horizon. The background is a deep blue space filled with stars. A white text box is centered on the right side of the image, flanked by two large, light blue, stylized arrows pointing left and right.

Institutional capacity of the Legal Development Network is the development of the coordinated coalition of civil society organizations that operate in the public interest

Institutional capacity of the Network strategic planning

For 2016, the Network held a series of events on strategic planning. These activities helped to build a shared understanding of the values of the Network, to review the mission and goals of the Network in terms of values, to work out network initiative, designed to solve actual problems of the target audiences of Legal Development Network, to revise a shared vision of the concepts of organizational capacity of Network offices, to develop a strategic plan of Legal Development Network for 2017-2019

Legal Development Network strategic planning session, Kyiv, December, 20-23. 12. 2016

Institutional capacity of the Network participation in the international and national forums

International conference “Strengthening of the legal capacity of communities”, Kharkiv, October 20-21, 2016: the importance of the ideas of Legal empowerment, community, society was illustrated on posters by success stories from offices of Network and the book “A step forward”

The forum for institutional development of civil society (Kyiv, November 29-30, 2016) is a powerful national platform to discuss major issues and set trend directions for the development of the whole public sector in the nearest future
